#### LIFE INSURANCE BY STATES.

The following tables show the business transacted in 1903 in the States named by the various life insurance companies. While not attempting to analyze the business in individual States, the tables exhibit the amount of policies written, the premiums and losses of each company, and the amount of insurance in force at the beginning and close of the year. It is simply an exhibit of the volume of business in the various States and Territories, and conveys an approximate idea of the total business. A few States do not require this information, and in such cases we have applied We give all the to the companies for particulars, some of whom for reasons best known to themselves have declined to answer our inquiries. particulars we could glean from the resources at our command:

# OFFICIAL LIFE INSURANCE REPORTS

Being a Series of Comparative Exhibits for Life Policyholders, showing the Business and Financial Standing of all the Life Insurance Companies of the United States. For two years ending Jan. 1, 1904.

#### COMPILED FROM OFFICIAL REPORTS

## EXPLANATORY NOTES.

EXHIBIT I. In addition to the companies named in this Exhibit, the following companies carry small amounts of outstanding insurance on their books, but write no new business: Girard Life; Annuity and Trust, Philadelphia; New York Life and Trust, New York; Pennsylvania Company for Insurance on Lives, Philadelphia.

Since July 1, 1903, the following level-premium companies have commenced operations: Contentnea Life, Wilson, N. C.; Life Association of America, New York; Southern Loan and Trust Company, Greensboro, N. C.; Southwestern Life, Dallas, Texas; Security Life and Accident Company, Concord, N. H.; Volunteer State Life, Chattanooga; Continental Life and Investment Company, Salt Lake City. During the same period the following companies have reorganized under level-premium laws: Bankers Reserve Life, Omaha; Eastern Life, Washington, N. C.; Security Mutual Life, Lincoln, Neb.

The following foreign life companies are operating in the United States: Canada Life, Toronto, Ont.; Manufacturers Life, Toronto, Ont. (admitted in 1903); North American, Toronto, Ont.; Sun Life, Montreal, Quebec. The Nederland Life of Holland has ceased transacting new business, but is carrying its existing policies to maturity.

EXHIBIT III. The Item of Assets Not Admitted consists of assets whose value cannot be readily ascertained by the insurance commissioners, and are therefore disqualified, although they may be perfectly good investments. Agents' balances, bills receivable, furniture, fixtures and safes, advances to agents and commuted commissions are included in this item. The departments also deduct the expense loading of the deferred and unpaid premiums. These amounts are also included in this column.

EXHIBIT IX. Many companies take notes in part payment of premiums, upon which interest is paid, and others loan a part of the policy reserve to their policyholders. The amounts of such notes and loans are, of course, deducted in the final settlement of the policies. The following shows the total of such notes and loans for the year 1902:

This makes a total of \$127,927,668, consisting of \$17,558,006 in premium notes, and \$110,369,662 in Loans to Policyholders.

EXHIBIT XII. The Item of All Other Assets is made up chiefly of interest and rents due and accrued.

EXHIBIT XVII. Many companies transact a large part of their business on plans which involve the deferment of dividends for periods of ten, fifteen, or twenty years. This is generally known as the tontine principle, and some departments require companies transacting this class of business to report the surplus specially reserved for it. This table also shows the surplus apportioned by the companies for future distribution and reported as liabilities.

EXHIBIT XIX. The Net Assets are obtained by deducting from the admitted assets all indebtedness outside the amount set apart as the reinsurance reserve. Capital stock is also deducted.

EXHIBIT XX. The capital stock has been deducted from the assets in order to eliminate the heavy ratios heretofore appearing in favor of new companies.

EXHIBIT XXI. This table indicates the relative standing of the various companies in regard to the age of their policyholders, for as the policies increase in age the amount of reserve held necessarily increases. It should not be used as a standard of strength.

EXHIBIT XXII. The Not Admitted items of assets added to the admitted Assets and Surplus give the Gross Assets and Surplus of this table.

EXHIBIT XXIII. The following amounts paid for reinsurance have been deducted from the premiums of the companies named, unless otherwise stated: Ætna, new \$178, renewal \$8,779; American Life, new \$116; Bankers, New York, new \$1,081, renewal \$1,650; Bankers Reserve, new \$263, renewal \$4,657; Berkshire, new \$11,326, renewal \$36,397; Central Life of Iowa, renewal \$670; Colonial, new \$1,917, renewal \$3,913; Connecticut General, new \$2,854, renewal \$10,939; Conservative, new \$329, renewal \$777; Des Moines, new \$280, renewal \$228; Equitable, New York, renewal \$46,741; Federal, new \$386, renewal \$1,889; Fidelity, new \$426, renewal \$1,940; Franklin, new \$3,535, renewal \$4,450; Germania, renewal, 5,556; Hartford, new \$5,828, renewal \$489; Home, New York, new \$4,034; re-

Exhibit XLIV.-XLIX. There is much uncertainty as to what is the really true basis for comparing expenses. Some companies claim that one ratio is the best, because it

for comparing expenses. Some companies claim that one ratio is the best, because it suits them, while others prefer an entirely different ratio. In these exhibits some of the

chief methods are given.

EXHIBIT L. The amount of interest earnings given here do not include the items of profit and loss, but only the actual interest and rental receipts of the year.

EXHIBIT LVIII. In the case of young companies having capital stock, the Ratio of Total Benefits to Premium Receipts naturally is rather high. The date of commencing business and the amount of capital stock should be considered in this connection. The industrial companies being of necessity conducted at a high rate of expense show a comparatively low ratio.

# STATISTICS OF ASSESSMENT ASSOCIATIONS.

In the following tables we present the statistics of a large number of assessment associations, both life and accident, and raternal societies, showing their transactions and financial condition for two years. These figures have been carefully compiled from official reports made to insurance departments, or from reports specially furnished to us for The Yrar Book. The comparative form in which they are presented lends special importance to them.

# INSURANCE AGENTS

A DIRECTORY OF AGENTS REPRESENTING ALL BRANCHES OF INSURANCE IN THE PRINCIPAL CITIES AND TOWNS OF THE United States and Canada.

EXPLANATION.—In this Directory the letters following the names denote the specialty of the agent, viz: f-Fire, l-Life, o-Casualty. The term casualty applies to personal accident insurance, plate glass, steam boiler, burgiary, and in fact to all classes of insurance indemnifying for casualties or accidental injuries to persons or property. (See also department containing names and addresses of General and Special Agents of the various companies.)

In addition to the facilities referred to above, we have an exclusive contract with responsible LONDON LLOYD'S UNDERWRITERS, under which we are enabled to cover large amounts on desirable Surplus Risks, REGARDLESS OF OTHER AMOUNTS ON SAME PROPERTIES placed through other channels.

Through our Amsterdam Agents we procure, by cable or mail, policies of the higher grade of Amsterdam Companies issuing a joint policy as "DUTCH UNDERWRITERS."

We have been placing surplus business with European Companies for more than twenty years, and have unequaled facilities for promptly covering large amounts on risks located

anywhere in the United States.

Orders concerning LEGITIMATE SURPLUS RISKS, AT FULL TARIFF RATES, will receive

prompt attention.

#### ATTORNEYS AND COUNSELORS

SPECIALLY QUALIFIED TO

#### HANDLE INSURANCE CASES.

(From the Insurance Law Journal.)

It is a well-known fact that few lawyers are competent to properly handle an insurance case without a special knowledge of the business, however skillful they may be as general practitioners. We have requested from a large number of well-known underwriters the names of attorneys whom they have found to be competent and satisfactory in the conduct of cases placed in their charge. The following list is made up of the names thus voluntarily given, together with a few others who have given special attention to insurance law.

# What We Are Trying To Do

Every Corporation, as represented by its Trustees and Officers, should have an ideal, a standard of work, a goal of achievement, toward which it should constantly strive. Here is what the NEW YORK LIFE INSURANCE COMPANY is trying to do;

I. To Issue the Best Life Insurance Contract A contract that, with the minimum of care and risk on the part of the insured, will secure to him and to his family the maximum of benefits. To this end we have eliminated from our policy contract every restriction upon the insured and every condition except the pay-

ment of premiums. We have put into the contract all the advantages we can think of, and in the form that seems best adapted to secure the ends in view. We would like to have you examine it, and see if you can suggest any further improvements.

2. To make the Promptest and Fullest Reports of its Business and Condition The Annual Report for 1903 was published on January 2d. A Detailed Statement, with full particulars of how the Company's \$352,000,000 is invested, is now ready in pamphlet form. Copies may be had for the asking.

3. To do Business under the Supervision of every Insurance Department in the World

The publicity we hear so much about as a remedy for the evils of trusts is secured for Life Insurance by State Supervision. We report to 82 different governments; our

books are open to the examination of all insurance officials; and there is no law for the security of policyholders that we are not complying with.

4. To Have the Best, and the Best Organized, Agency Force We seek trustworthy men for agency work—it is for our interest to do so. We try to get men who will tell the truth to intending insurers. We allow no rebating, because it is against the law in many States, is unfair to insurers, increases

expenses, and brings in business that soon goes off the books. We have Branch Offices in every large city, by which all needed facilities for handling business are placed at the disposal of agents and policyholders.

5. To Insure as Many Good Risks as Possible People sometimes ask why we are not content to fix a limit to new business. But why should we? We believe Life Insurance to be the best system of protection and savings known to

man. We think there is little danger of over-insurance and great danger of under-insurance. We believe the advantages of it should be constantly urged upon men, and that the more people we can induce to insure the better.

Perhaps you would like to know how we are succeeding. The present management came into office twelve years ago. We found the New York Life a great company, with nearly \$126,000,000 in assets, and nearly \$600,000,000 of insurance in force under 183,000 policies. Our last report shows \$352,000,000 in assets, and \$1,745,000,000 of insurance in force under 812,000 policies. That tells the story in brief. If you wish it more in detail, address

# The Spectator:

#### AN AMERICAN REVIEW OF INSURANCE.

PUBLISHED WEEKLY.

Subscription Price, \$4.00 per Annum.

THE SPECTATOR is a live and progressive insurance journal, noted for its pungent and fearless discussion of all matters pertaining to the vast subject of insurance in every branch. In the many years of its existence it has built up a reputation for fair and honest treatment of insurance matters that has made it invaluable to insurance men of every class, whether they be

#### MANAGERS OF COMPANIES OR AGENTS IN THE FIELD.

It contains the latest and freshest insurance news from every quarter, bright and sparkling correspondence from the principal insurance centres of the country, comments on current insurance events of the day, and able discussions on the principles of Life, Fire, Accident and Miscellaneous Insurance.

A most valuable feature of THE SPECTATOR is the presentation from time to time of carefully prepared and voluminous

#### COMPARATIVE STATISTICAL EXHIBITS

of the business of Life, Fire and Miscellaneous Insurance, usually in a comparative form, showing the business transactions and detailed experience of all companies for a series of years. These statistics are compiled by experts having no personal interest to serve, but are prepared solely for the purpose of analysing the subject.

#### THE MOST EMINENT WRITERS

on Insurance in its various forms are contributors to its columns, and the aim of its proprietors is to present the science of the insurance systems in vogue without prejudice to any and in fairness to all. It is in this spirit that Fire, Life, Industrial, Accident and Employers' Liability, Natural Premium Life and Miscellaneous Insurance Companies, Associations and Societies are treated without fear or favor. It also gives the current news from different insurance centres each week, and each number is

#### AN EPITOME OF INSURANCE AFFAIRS

that are of interest to the profession at large. In short, it is the ambition of its proprietors to make THE SPECTATOR an invaluable journal to every person identified with the insurance interest in any capacity, and its unprecedented success is evidence that their efforts are appreciated.

Any business man entering the insurance profession as manager, agent or broker should address The Speciator Company for information regarding the various treatises and other instructive publications printed in the interest of the particular branches of insurance. Managers and general agents should see that their sub-agents are supplied with the various publications issued by it in behalf of insurance. The public interested in insurance from a fire, life or casualty standpoint should secure copies of the works of reference, containing reports on insurance companies, issued by it.

A complete Catalogue of insurance works will be sent to members of the insurance fraternity, or to any person, on receipt of five cents to cover postage.

Attention is called to the condensed Catalogue of the insurance works of The Spectator Company presented on other pages of this issue.

A treatise on Marine, Fire, Life, Accident and all other Insurances, including Mutual Benefit (Assessment) Societies, covering also general average, and, so far as applicable, rights, remedies, pleading, practice and evidence.

By JOSEPH A. JOYCE

#### IN FOUR VOLUMES OF 1000 PAGES EACH

The most thorough and complete treatise and working book on this subject. Exhaustive in its entirety; exhaustive in every chapter. Containing rules and definitions, comparisons of conflicting decisions, separate chapters on technical points pertaining to particular insurance, with numerous quotations from and citations of decisions in this country, England and Canada.

It is an exhaustive work, covering all kinds of insurances, so far as there are any

decisions in courts of last resort.

JOYCE ON INSURANCE is a cyclopædia of all legal insurance works brought up to date, and should be in the library of every insurance man—be he manager, general agent, local agent or broker.

Each subject in this work is so exhaustively considered as to constitute in effect a

treatise in itself.

The Spectator Company are sole agents for the insurance world for this publication, and all orders must be placed through them.

The four volumes are handsomely bound in law sheep, and make a valuable addition,

# Principles and Practice of Life Insurance

#### SIXTH EDITION—REVISED, ENLARGED AND IMPROVED,

A Treatise on the Principles and Practice of Life Insurance, with valuable Tables for reference. A complete Arithmetical explanation of the computations involved in the science of Life Contingencies.

#### B) NATHAN WILLEY.

This edition contains entirely new descriptive text from that found in the former edition, and for the first time since this work was originally published it has been carefully rewritten and recompiled, and entirely

first time since this work was originally published it ame occur to 19 me.

New Tables of Premiums and Annuities have been developed by arithmetical process.

The Interest Tables have been enlarged and now include 2, 2%, 3 and 3% per cent valuations, and all the tables have been extended from 50 to 100 years.

There are also included among the new Tables Values based upon the American Experience Table with interest at 4 per cent; also Values upon the same table with interest at 3% and at 3 per cent.

These Values have been extended so as to include all the usual forms of Life and Endowment Policies. The Valuation Tables upon the Actuaries' Table of Mortality 4 per cent interest, have been enlarged both in respect to Reserves and Cost of Insurance; also the Premiums for Term Insurance, Actuaries' 4 per cent, have been intended so as to give from 1 to 15 years inclusive, and they are also given for the 20th and 25th years.

#### An Interesting Fact

¶ On the 1st of March, 1904, THE CONNECTICUT MUTUAL reached a stage in its history very interesting to its management and its members and one which is unique in the history of American Life ¶ On that date, but little more than fifty-eight years from its organization, it had received from its members in premiums the sum of \$228,376,268, and had returned to them or their beneficiaries \$228,724,073, or \$347,805 more than it had received from them. THE CONNECTICUT MUTUAL is the first American Life Insurance Company to return to its members one hundred per cent. of its receipts from them. And it holds besides \$65,000,000 of assets, with a surplus of over \$4,600,000 to protect over 70,000 policyholders insured for over \$166,000,000.

should increase their writings of this class of indem nity by the distribution of the pamphlet, entitled,

WINDSTORM AND TORNADO INSURANCE" By FREDERICK L. HOFFMAN.

This work contains some fifty pages of data relating to the subject mentioned, and is, undoubtedly, the most up-to-date treatise upon tornadoes and windstorms now extant. It makes a careful study of storms and resultant losses, and also of insurance premium receipts, losses and risks. There are numerous illustrations showing the devastating effects of windstorms, which, with the text, should be of great value in influencing property owners to protect themselves from the danger of loss by windstorms.

The last edition of Tornadoes presents a large amount of new data not given in previous editions. This is the only recent book on Tornadoes issued for the use of insurance men.

# ACTUARIAL SCIENCE

BY MILES MENANDER DAWSON.

... CONSULTING ACTUARY.

#### THE SIMPLEST, MOST COMPREHENSIVE, AND MOST PRACTICAL ELEMENTARY ACTUARIAL TEXT-BOOK

ever published. It comprises 500 pages, of which 204 is text and the remainder tables.

Perhaps Mr. Dawson's best qualification to write such a book is his ability to "popularize" or simplify matters which are abstruce by nature, and likely to become more difficult if dealt with in too technical language. It is this quality of simplicity, rather than anything strikingly new, original or advanced, that the work contains which will make it useful.

One of the strongest recommendations of the book is that, throughout, the notation which has been adopted for universal use by the International Congress of Actuaries has been employed. The reader may thus pass to the Institute of Actuaries' Text-Book for more advanced study, without being confused by change of symbols. This is the first American book to conform to this notation. A table of alternative symbols is given.

The text of the book comprises more than 300 pages, although each subject is condensed to the least space that will answer to make the subject clear. Next follow 200 pages of

#### STANDARD TABLES,

comprising all the standard mortality tables of the world, whenever, wherever, and for whatever purpose employed. No such compilation has ever before been attempted.

Accompanying all the tables which are used for computations are commutation columns at 4 per cent. and 8 per cent., in most cases also at 3½ per cent., in many at 4½ per cent. and in two at 5 per cent. Some of them have been computed for this book; others have never before been published.

Each table is preceded by an introduction, telling its origin and its uses.

Practical lessons in actuarial science

is printed on heavy calendered paper, with wide margins, for purposes of notation, and is substantially and elegantly bound.

the Accident Insurance Solicitor, containing Hints to Agents, how to obtain business, and a Directory of Plans, Contracts and Premiums, portraying the leading features of the principal Stock and Mutual Accident Companies and Sick Benefit Associations in the United States, covering both accident and health insurance.

This work also includes a carefully prepared classification of the various risks according to the hazard of occupation. An especially valuable feature is the table of benefits, showing at a giance the indemnities paid under accident contracts.

The chapter on "Hints to Agents," written by a field man and manager of many years' experience in the accident insurance field, is full of salient points for those engaged in soliciting.

The work is handsomely printed, bound in comvenient form for the pocket, and will be sent postpaid on receipt of price.

# LIFE INSURANCE SAYINGS

#### JAMES T. PHELPS of Boston

The insurance world is familiar with the bright and pithy sayings, in the form of fables, aphorisms, epigrams, proverbs, comments on men and things, upon historical events and current happenings which illustrate some life insurance maxim, which have been prepared and given publicity from time to time, by James T. Phelps. There has recently appeared in book form many of these articles and paragraphs written by Mr. Phelps. They have been made up into a handsome little volume entitled "Life Insurance Sayings," presenting forceful arguments in favor of life insurance. Every fable enforces its moral "insure your life," and every bright saying is calculated to set the reader thinking that it means him. Every agent in the country should have copies of this book to give or to lend to intending insurers. Mr. Phelps treats of life insurance in general for the good of all, never advertising his own company or seeking to belittle competitors. The undersigned are the exclusive selling agents of "Life Insurance Sayings," and all orders for this work must be placed through them.

## Hovantage of a Large Subscribed Capital.

The recent Toronto fire, by which the insurance companies lost over \$10,000,000,000,000, demonstrated the value of a large subscribed capital. In certain cases where the capital was fully paid-up, the stock was assessed or cut down to meet the deficiency. On the other hand, companies like the "Equity," with its large subscribed capital, had only to call in the amount desired.

While the losses of the "Equity" were less than \$50,000 in the Toronto fire, the directors very wisely called in \$100,000 of its subscribed capital. Under the laws of Canada, fire insurance stock once subscribed for is permanently binding upon the subscriber and can only be transferred upon the vote of the Board of Directors, to a party wholly responsible.

Notwithstanding the fact that Toronto has numerous local companies, nearly all of which were large sufferers by that fire—calling for extra cash funds—it is most gratifying to state, that in each and every case the money required was furnished by the stock-holders with a degree of promptness unrivalled in the history of fire insurance.

### READY IN AUGUST

## Fire Insurance Laws, Taxes and Fees

A valuable publication for the use of Fire Underwriters, containing a

DIGEST OF THE STATUTORY REQUIREMENTS IN THE UNITED STATES AND CANADA, WITH MANY QUOTATIONS FROM THE STATUTES RELATING TO FIRE INSURANCE MATTERS. THIS WORK ALSO EMBRACES A COMPILATION OF THE COUNTY AND MUNICIPAL TAXES AND FEES REQUIRED IN THE VARIOUS STATES AND TERRITORIES.

A Series of About

#### SUBJECT INDEXES

aid materially in rendering this publication an exceedingly valuable one for quick reference. Thus, for illustration, under the heading of "Taxes" is given a list of the States levying taxes upon fire insurance companies, with a column showing the percentage, and another column stating the page of the book upon which more detailed information on this subject is presented. Following the General Index and the Subject Indexea, appear synopses of, or quotations from the laws bearing upon the below-mentioned subjects in all the States and Territories, and in Canada, the matter relating to each State being grouped together. The topics treated are as follows:

### County Taxes and Fees

### Municipal Taxes and Fees

Under the last two titles are listed the counties and towns known to require taxes or fees to be paid by fire insurance companies or their agents, with their respective amounts or percentages.

The general plan of "Fire lasarrance Laws, Taxes and Fees" contemplates digesting the laws on the above topics in cases where there is no apparent ambiguity of meaning; but to quote in extenso portions of the statutes which are deemed to be susceptible to more than one interpretation.

The codification of the system of county and municipal taxes and fees is unique, having in no other publication, we believe, been undertaken for the whole country.

### FIRE INSURANCE LAWS, TAXES AND FEES

is a handsome book of about 340 pages, bound in law sheep. Every officer, department manager, and special agent of a fire insurance company should possess a copy of this work, which, for general purposes, is more than a substitute for a large library of law books.

SENT, EXPRESS PREPAID, ON RECEIPT OF FIVE DOLLARS.

## Fire Insurance Law Chart

This very convenient chart, issued annually in August by The Spectator Company, contains in tabular form a summary of special State Laws relating to statements required of fire insurance companies and other matters. Its purpose is to show what States have standard policy, valued policy, resident agents, anti-co-insurance and anti-compact laws, or those prohibiting reinsurance in unauthorized companies. It also states whether home-office statements are required of foreign companies; gives the final date when annual statements may be filed, and fees for filing same; when tax statements are required, and percentage of tax; the date of expiration of local agents' licenses, and license fees. The information is given regarding each of the first six subjects by a simple "yes" or "no" for each State; under the other headings the information is given complete, dates, amounts, etc., in full.

Variations are amply covered by explanatory iootnotes.

The chart is printed in two colors, the word "yes" appearing in red in every instance, and the word "no" in black. The chart is brass tipped top and bottom, and is printed on excellent bond paper, so that it may be hung up in a convenient place for ready reference.

This chart is designed to solve many vexatious questions that arise as to the requirements of the different States upon the points enumerated. In this chart the answers can be seen at a glance. The compilation has been made with great care, involving much labor and research. Having been approved by the officials of the various Insurance Departments, it is believed to be correct in all its details. This very convenient chart, issued annually in August by The Spectator Company, contains in tabular

### Reasons Why K Should be Preferred by Those Desiring Insurance.

It has the benefit of over fifty years' successful experience.

Its business is conducted on the mutual plan, thus enabling members to get their insurance at cost.

It has always paid large dividends, thereby making the cost of insurance low.

It maintains a reserve for the protection of policyholders, on the Massachusetts Standard, the highest basis required by the laws of any State,

It has a large surplus over the legal reserve and all other liabilities.

Its conditions as to travel and residence are very liberal.

Its policies are protected by the non-forfeiture laws of the Commonwealth of Massachusetts, which secure greater benefits to members than those of any other State.

It has always maintained a high reputation for just and liberal treatment of its members by promptly adjusting and settling all policy claims, a proof of which is the fact that no judgment has ever been rendered against it.

## NEW EDITION, REWRITTEN AND IMPROVED

## ELEMENTS OF LIFE INSURANCE

By MILES MENANDER DAWSON, Consulting Actuary

SINCE the publication of the first edition of "Elements of Life Insurance," in 1896, such significant and important changes have occurred in life insurance in the United States that it has become necessary, in issuing a second edition of this work (for which there has been a continuous and gratifying demand), to rewrite a great portion of it. This has rendered possible an improved arrangement of matter, greater accuracy of statement, and clearer demonstrations, also permitting a broadening of the scope of the book.

Is a non-mathematical explanation of life insurance as practiced by ELEMENTS OF

LIFE INSURANCE
the regular companies in the United States. It discusses insurance in general, features peculiar to life insurance; vital statistics; the fundamental principles of probabilities; rate making; reserves; surplus derivation, apportionment and application; surrender values; policy loans; insurance of impaired lives; departmental valuations; the policy contract; mortality tables, etc.

While "Elements of Life Insurance" is comprehensive, it is written in such simple, untechnical language that, as one critic says, "the book is continuously and absorbingly interesting." It is clear and concise, and may be readily understood by any business man. Substantially bound in cloth. Sent postpaid on receipt of price, \$2.00. **ELEMENTS OF** 

## ASSESSMENT LIFE INSURANCE

A companion volume to "Elements of Life Insurance," by the same author, is uniform in binding, and treats in a similar manner, from an impartial standpoint, the sub-

ject of life insurance as practiced by the assessment societies. Price, \$1.50.
"Elements of Life Insurance" and "Assessment Life Insurance" are supplied,

when ordered together, for \$3.00.

All orders must be placed through the publishers.

#### THIS MAY HAPPEN TO YOU.

A handsome little brochure of thirty-two pages, especially designed for solicitors for personal accident insurance, and is well calculated to catch the eye and secure the attention of those whom the solicitor is working to insure. Object lessons are conceded to be the most effective way of imparting instructions, and here are a number of such lessons presented in attractive form that will not fail to interest whoever sees them. Prices, \$10 per 100; \$6 per 50; \$2 per 12. Single copy, 25c.

## BLANK BOOK HELPS FOR LIFE AGENTS.

The systematic life insurance agent generally turns out to be the most successful in his chosen vocation. For such men there are a number of helps in the way of blank books, which when properly used, prove of great service.

A new publication of The Spectator Company called "LIFE INSURANCE AGENTS' VISITS" is prepared with a view to enabling solicitors to keep a daily record of visits to prospective applicants. Space is provided for all necessary information desired in maintaining a complete record of each person solicited. A sample copy will be sent for ten cents, and in our advertising columns will be found further

particulars as to prices, etc.

THE HANDY HELPER is a more elaborate work on lines similar to "Life Agents' Visits," and affords opportunity for general agents and managers to keep track of the work done by their solicitors. It can also be used by soliciting agents to keep a permanent record of their work. The book contains fifty double pages, giving room for at least one year's activities of the average agent. This work sells at

fifty double pages, giving room for at least one year's activities of the average agent. This work sens at \$1 a copy.

THE LIFE POLICY REGISTER AND PREMIUM RECORD is a blank book designed for office use, to maintain a complete and concise record of business done, and is an absolute indicator of dates when premium payments become due. Each double page contains the monthly expiration divisions for four years. The book is made in three sizes, affording \$200, 5000 and 7500 entries for four years or for a greater number of years if fewer policies are disposed of. Prices for No. 1, \$5; No. 2, \$8; No. 8, \$15.

THE RECORD OF LIFE INSURANCE POLICIES is intended for the use of insured persons and enables them to keep a complete record of their life insurance policies. Even numbered pages contain a full description of the policy, while on the opposite pages are columns showing the date of payment, amount paid, cash dividends, net cost for the year and costs to date; also the additions to the policy and the sum the policy has increased to. Sample copy will be forwarded on receipt of twenty-five cents.
